

# MEASUREMENT MATTERS

## Summer 2025 Update

### Survey Pilot Update:

We surpassed our goal of 300 surveys!

Thanks to all of our partners, we could not have done it without you!  
Find more information on pilot challenges and lessons learned [here](#).

### July Engagement Summit

Thank you for attending our first Engagement Summit Meeting!

This meeting created an opportunity for many of our partners, including Steering Committee Members, Technical Advisors, and Pilot Partner Subcommittee Members, to connect for the first time! We discussed the pilot process, preliminary findings, and next steps. To guide the upcoming analysis phase, we took some time to review our analysis goals, partners' ideas for analysis foci, and partners' questions and concerns to guide the analysis work.

Couldn't attend the meeting live? No worries! Check out the [meeting notes](#) or [meeting recording](#) for more information!

## More Opportunities to Guide this Work!

### Analysis Office Hours

The Research Team began hosting weekly office hours from 12-1 CST on Friday, Aug 8<sup>th</sup>

These are informal working meetings to hear findings as they develop and ask questions to support interpretation.

**ALL ARE WELCOME!**

Come ask questions or simply listen in!

### Fall Engagement Summit

The Research Team will host its second all-partner Summit on Monday, September 29<sup>th</sup> from 11-1 CST.

The purpose of this Summit will be to discuss analysis progress and plan for reporting our findings. We will also spend time envisioning our next phase of PCOR-EM pilot testing.

Calendar invite forthcoming!
